FROM THE CHAIRMAN'S DESK

A child is a unique gift of God to humanity with a bundle of talents hidden inside. A teacher as a mentor, nurturer, healer and an inspirer polishes the various talents and virtues of the child to make him or her, a responsible citizen of the society. Children are the future of the nation. So they should be taught the right values in life to develop the feeling of brotherhood and nationalism.

I always ask myself, "What should be the first priority in a student's life?" The answer which I find is nothing but 'time'. There are many factors which are responsible for one's success, but 'time' stands high above all. A student's success depends on how meticulously he or she plans the little time at his or her disposal to complete the plan of studies. Hundred percent devotion within a stipulated time-limit results in success.

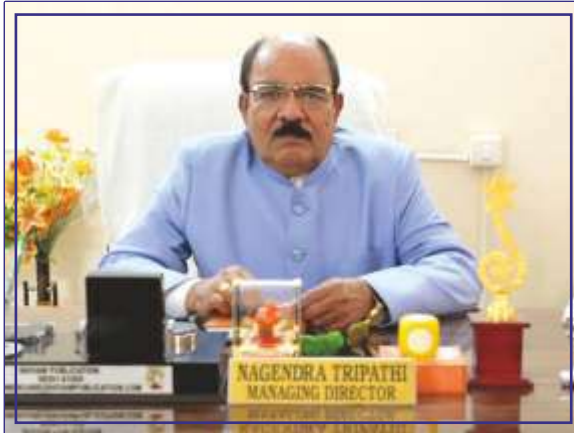

Success however, should always be combined with strong moral and ethical values. The focus should lie in preparing students to think reflectively and develop their own enhanced capacity for ethical reasoning with a correct code of conduct. This will develop good moral judgement in students and it will help to promote social values both within the classroom and beyond.

Money can never buy what I have wished for my students. So, let education be an all-round development with social, ethical and moral values inculcated in teaching. Let the students be a part of whatever noble we do and our good teachings would still be around, long after we have gone, making our country a 'dream-country' for all. All the best for the future

WISE WORDS FROM MANAGING DIRECTOR

Education is the most powerful weapon which you can use to change the world". – Nelson Mandela

The exposure that we provide, the knowledge that we impart and the curriculum that we focus on, prepares young minds to develop an in-depth understanding of fundamental skills in the arts and sciences, current world events, intercultural dialogue and fluency in the new technologies, thereby preparing students for the global challenges of the present and the future.

We value and treasure the uniqueness each child brings to the classroom. The very diverse cultural backgrounds and learning styles of our student community makes KPS Tendua an ideal setting for positive and healthy learning. DO THINGS DIFFERENTLY TO EXCEL

We should not judge a book by the cover and a child from his report card. KPS Tendua is working on all round development of child, it will take years to show some tangible results, but there is considerable progress in this direction.

The challenge right now with us is embracing modern schooling methods without forgetting our time tested teaching techniques to provide world class education.

KPS Tendua stands for structure, stability and it's commitment to discipline. We also ceaselessly strive to keep abreast of our times to be able to create an environment at school that nurtures all the faculties of our children: social, physical, intellectual and emotional.

We like our children to feel safe, well-loved and secure in the understanding that every one of them is special. As we embark on this amazing and enriching journey, I am confident we will succeed in challenging our students to become engaged citizens of the 21st Century who possess not only the knowledge for critical thinking but also the motivation for keeping their minds actively engaged in learning for the rest of their lives. We encourage you to partner with us and support our endeavors so as to have a fruitful and lasting impact on the lives of our younger generation. Together we can ensure they have a more informed understanding not only of themselves but also of the world in which they live.

FROM THE PRINCIPAL'S DESK

I would like to welcome all our students and staff to the New Academic Year 2025-2026. Let us begin to learn through experiences, observations, hard work and commitments. Our school is constantly scaling new heights with excellent professionals training our children in a range of co-curricular activities so that they evolve as excellent individuals who have honed their skills in the microcosm of the school and are equipped to lead and inspire in the microcosm of the world.

We affirm that education begins at birth and continues through life. Our complete focus is to provide a support center to our children so they continue learning and developing towards becoming whole and healthy individuals. We work with the core belief that wisdom can be cultivated gradually amongst all individuals. It is not enough to make children literate and academically intelligent what is more important is to make them wise so that they are able to use their intelligence judiciously. The students at KPS TENDUA extension are offered many opportunities to explore their interests and investigate new ideas. We offer many clubs, activities, sports and a large variety of musical ventures that our students can participate in. Many of our students are involved in a variety of extracurricular activities that allow them the opportunity to grow at their own pace in a safe, nurturing environment. Our list of clubs, activities and other extracurricular offerings are broadened each year with a hope to have something that interests every student.

I take this opportunity to thank all the parents who have reposed their faith in our school. We assure to do our very best always. The school always tries its best to maintain the highest quality academic standard and provide the wonderful environment for studies
